

2019 CAMPAIGN STATEMENTS

SEVERAL WISHES OF PARTICIPATING CHILDREN FROM THE PRIMAL VENUE SANTIAGO DE CHILE

Climate Alliance

2019 CAMPAIGN STATEMENTS

Several wishes of participating children from the primal venue Santiago de Chile

SOME STATEMENTS OF GIRLS AT LICEO TAJAMAR, SANTIAGO DE CHILE

Both during Biology and English lessons the girls created visions about the change they want to see in this world and designed their own posters about their wishes and demands for a more sustainable future to the politicians at the COP 25:

"Use public transportation to reduce air pollution."

"Promover el consumo de productos locales con menor huella de carbono."

"Reduce the sale of fishing nets."

"Queremos más reciclaje en la ciudad."

"Reduce the consumption of meat from cattle raising."

"Queremos más áreas verdes y menos edificios."

"We want more biological things and less plastic."

"LA TIERRA NO ES NUESTRA - NOSOTROS SOMOS DE LA TIERRA."

THE GREEN FOOTPRINTS CAMPAIGN

Since 2002, Climate Alliance's Green Footprints has been helping children across Europe learn about the influences of their daily actions on the climate and encouraging them to become role models for both their parents and climate politicians. During at least a one week period, children in participating classes collect so-called 'green footprints' for every sustainable trip completed via public transport, bike or foot as well as for other environmentally-friendly habits such as sustainable nutrition. These footprints are presented to the participants and politicians at the UNFCCC's annual Climate Conferences. zoom-kidsforclimate.eu

THE CLIMATE ALLIANCE

For more than 25 years, Climate Alliance member municipalities have been acting in partnership with indigenous rainforest peoples for the benefit of the global climate. With some 1,700 members spread across 26 European countries, Climate Alliance is the world's largest city network dedicated to climate action and the only one to set tangible targets: each member city, town and district has committed itself to reducing greenhouse gas emissions by 10 percent every 5 years. Recognising the impact our lifestyles can have on the world's most vulnerable people and places, Climate Alliance pairs local action with global responsibility. climatealliance.org
